SPA POLICIES

There is a 24-hour cancellation policy. If you must cancel, please call at least 24 hours in advance. Late cancellations and "no shows" will be charged the full price of scheduled services (to credit card or gift certificate balance). Please be on time. Regardless of your arrival time, your treatment will end at the scheduled time in order to not inconvenience the next client; the full price of your service still will apply. We love children, but our spas offer clients the chance to relax in a tranquil setting. As a courtesy to our other guests, please make arrangements for your children. Please turn off your cell phone and speak quietly while in the treatment areas. A 15% gratuity is suggested and greatly appreciated by our staff. We reserve the right to require a credit card to hold your package reservation. All prices of products and services are subject to change without prior notification. We are not responsible for typographical or pricing errors, online or printed.

welcome

Our Spas provide expert waxing, skin, body, and nail care services in an elegant, yet cozy, atmosphere.

Here, human touch is our inspiration and making things better is our Passion. Maintaining superior standards and customer satisfaction is a top priority for us, that is why all our estheticians are trained by Pia, or under her close supervision, even after years of prior study and experience. Continuing professional education beyond state regulations also is a requirement.

Our commitment to consistency in procedures and high quality in every detail marks the strong difference between us and other spas. Some hire staff by relying solely on a résumé and lease space to the person willing to pay the most rent. We love what we do, and it shows in the results. We are committed to your satisfaction in every aspect of your experience with us. Our main goal is to provide you with the best services available so that you will enjoy your time with us and look forward to your next visit.

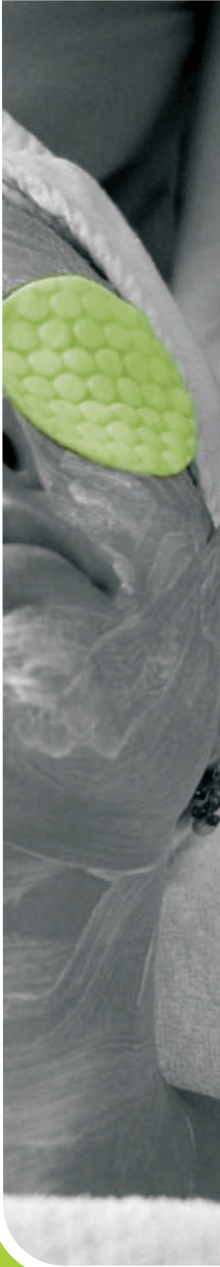

This menu contains our most popular services. We encourage you to visit our website (bypia.com) to check for new services, packages, seasonal treatments, and answers to frequently asked questions.

Your opinions and suggestions are very important to us. They are the best way for us to keep improving so that we serve you better. To send your feedback, please go to bypia.com/feedback.

Age Smart Facial 75min **\$110**

This unique facial is recommended for people with concerns about premature aging. The Age Smart professional line from Dermalogica impacts the main biochemical reactions that cause signs of skin aging - the formation of free radicals. This treatment also deeply cleanses your skin, exfoliating dead cells and clearing congestion. Revitalizing additives and smart age complexes calm, hydrate, and boost your skin.

Peel 35 60min **\$95**

A strong skin exfoliation treatment that stimulates cell renewal rates, helping to improve texture and brighten the skin. From breakout-prone and aging skin to hyperpigmented and dry, dehydrated skin, exfoliation is important to improving the health of skin impacted by a variety of conditions.

natural skin care

These spectacular facials nourish your skin with intense concentrations of vitamins and nutrients, using high quality natural products extracted from fruits, vegetables, and herbs.

Cherry Berry Peel Facial 60min

\$90

Cherries are rich in powerful antioxidants called flavonoids, which have a variety of therapeutic effects on the body and skin. They improve skin health by destroying free radicals and strengthen collagen, responsible for skin firmness and elasticity. Flavonoids also are natural anti-inflammatory compounds. Ideal for prematurely aging skin.

Pumpkin Peel Facial 60min

\$90

An alternative to glycolic peels, the Phyto Pumpkin Enzyme Peel uses a fruit acid/enzyme that is an exfoliation accelerator, a powerful antioxidant, and a mild retonic acid substitute. This natural repair therapy uses beta carotene and ascorbic acid as topicals to combat oxidative, free radical damage. Sensitive skin and acne conditions benefit from the Phyto-Pumpkin Enzyme Peel's milder and less intrusive activity on the skin. This peel contains the richest source of beta carotene and a full complement of Vitamin A derivatives making for less of the oxidative and free-radical stress associated with other chemical peels.

microdermabrasion

Extraordinarily healthy, glowing skin. Microdermabrasion effectively removes dead skin cells on the surface of skin and brings fresher, younger skin to the topmost layer. Microdermabrasion is a safe, non-surgical, side-effect free treatment with no adverse impact on the skin. It works well for almost all skin types and colors, and is commonly used to treat and diminish blackheads, whiteheads, fine lines, wrinkles, sun-damaged skin, acne-prone skin, superficial age spots, hyperpigmentation, oily skin, and dry or patchy skin. This treatment also is known to stimulate collagen and elastin production.

massage

Massage is one of the oldest healing therapies. When performed by a skilled therapist, massage can benefit your body and mind in a number of ways: relieve stress; decrease depression and anxiety; alleviate lower-back pain; alleviate discomfort during pregnancy; strengthen the immune system; and help to prepare for, and recover from, workouts. Massage also pumps oxygen into tissues and vital organs; improves circulation; reduces spasms and cramping; relaxes and softens injured, tired, and overused muscles; releases endorphins; reduces high blood pressure; relieves migraine pain; and enhances sleep quality.

Replenish your energy levels and bring harmony to your mind and soul in the soothing environment we have created for you.

Relaxation / Swedish Massage

Soft to medium manipulations relieve stress, providing an overall improved sense of well-being and improved circulation.
